Potential competing interests: No potential competing interests to declare.

The abstract is too long. Consider revising it to include only a summary of the outputs.

The article is a bit too long. Please summarise it, taking into consideration the important points to remark to the readers.

Research Findings

I would suggest that the findings be sorted according to categories or any relevant theme rather than presenting them in a paragraph. Relevant tables may be presented to show the findings and strengthen the findings so that they could bring confidence to the readers in the research findings.

The implications should be critically discussed, focusing on the findings within the questionnaires only.

Strategies that can be used to enhance the use of smartphones in these schools

Suggest renaming the header.

When discussing strategies, I suggest aligning the strategies with the findings.
