Review of: "Unveiling Power and Ideologies in the Age of Algorithms: Exploring the Intersection of Critical Discourse Analysis and Artificial Intelligence"

Sanjay Mohapatra

Potential competing interests: No potential competing interests to declare.

While the attempt is praiseworthy, still the article can be improved. First, the discussion can be about why you chose CDA. Is it for familiarity, or is it to apply it to AI and see the impact? What are the other options available, and the rationale for choosing CDA would have been great. Second, a plagiarism check would be better. Third, what contribution have you made to the research world? Please bring that out clearly. On the whole, a great start.
