

# Review of "Peer-Reviewed Publishing"

Jon Tennant<sup>1</sup>

<sup>1</sup> Open Science MOOC

While I sympathise with this definition, I think more concrete evidence or examples of the 'flaws' and 'harm' could be provided here too. I'm not saying I disagree (or agree), just that it would be more useful. Also, could the referred article be shared outside of ResearchGate? I don't engage with that platform due to the ongoing harm it does to the academic system.
