

Review of: "Comparative Analysis of Machine and Deep Learning Techniques for Text Classification with Emphasis on Data Preprocessing"

Mrinal Pandey

Potential competing interests: No potential competing interests to declare.

1. Not suitable for journal
2. Author started with the medical discharge summary and patient's health, while considered the Titanic dataset which is completely irrelevant with the theme of the paper.
3. Literature Review is not systematic.
4. Preprocessing steps are generic, it should be specific.
5. Comparisons from previous work should be presented in the paper.
6. Feature selection is mentioned in the figure no. 3, but what kind of feature selection techniques were used is missing.
7. Data description is missing.
8. No Novelty in the paper
9. Poor paper writing
