Potential competing interests: No potential competing interests to declare.

1. This topic is interesting and could be useful if it were written well.
2. The article lacks an organized structure, with no introduction or proper classification for the description of each section.
3. The contents are not presented in order, and in general, the principles of essay writing are not followed.
4. It is very short and does not provide much information, lacking figures and tables that are worth printing.
5. The study is not well interpreted, and previous studies have not been clearly compared with the present study.
