

# Review of: "Responsible Governance of Genomics Data and Biospecimens in the Context of Broad Consent: Experiences of a Pioneering Access Committee in Africa"

Pasquale De Blasio

Potential competing interests: No potential competing interests to declare.

1. Better describe the message of this paper...Not really clear
2. Abstract Explain what is meant by ....and to whom it is addressed  
...no longer has oversight over future...
3. Only data is accessible? How will the genomic data be used? Commercially or for experimental purposes?
4. Clarify the users' or requesters' credentials
5. Better define, in the abstract, the benefits for the African population
