Comment for Author

This paper is generally well written and structured, but only needs to undergo a few minor changes:

1. Authors are requested to add more results.
2. The future recommendations should also be provided.
3. Authors did not elaborate on the novelty of this work; hence, there is room to make this a useful contribution.
4. More literature review must be added, such as: <https://doi.org/10.1007/s12145-023-01006-7>
5. At the end of the introduction section, the aim and the novelty of this work should be provided.
6. Were any sensitivity analyses conducted for the selected criteria?
7. Authors are requested to add future recommendations for the study area.
