

# Review of: "Women in Military: Breaking Barriers & Shaping the Future"

Ali Maksum

**Potential competing interests:** No potential competing interests to declare.

This research holds immense potential to contribute to the broader discourse on gender equality, military effectiveness, and societal perceptions of women's roles. By documenting the contributions of women in the armed forces, this paper is not only preserving history but also paving the way for a more inclusive and equitable future. I recommend this paper for publication.
