

Review of: "Application of Ensemble Learning in CXR Classification for Improving COVID-19 Diagnosis"

Bakht Azam

Potential competing interests: No potential competing interests to declare.

The paper written is organized and comprehensive, but the following suggestions may improve your paper.

Novelty of Idea: The idea has moderate novelty

Novelty of Proposed Technique: the proposed technique lacks innovation.

Model Generalization: Lacks discussion on handling new or unseen data.

Comparison with State-of-the-Art: Insufficient comparison with existing techniques (explained in the literature review).

Why you don't feel good to use deep learning approach rather?
