Child-Pugh Class A

National Cancer Institute

Source

National Cancer Institute. *Child-Pugh Class A*. NCI Thesaurus. Code C113691.

Child-Pugh score indicating one-year survival of 100% in patients with chronic liver disease and cirrhosis. This score is determined by the study of the following five factors: bilirubin, albumin, international normalized ratio, presence and degree of ascites, and presence and degree of encephalopathy.
