Potential competing interests: No potential competing interests to declare.

This paper explores that Financial Repercussions of Carbon Emissions and Depletion of Natural Resources: The Role of Fiscal Policy in Determining Health Expenditures However, the following problems exist and need to be further improved.

1. The abstract does not clearly reflect the meaning of the topic, and it is recommended that the topic be more concise.
2. Lack of robustness and heterogeneity discussion.
3. The econometric model is not clearly written.
4. The topic is fiscal policy, however, political stability, and absence of violence do not seem to be necessarily related.
