Abstract:

- Important quantitative data (important findings) should be added to the abstract.
- Please add the outcome of your study.

Introduction:

- Please add the state of the art and the novelty of this study clearly.
- Please add the urgency of this study.

Material and Methods:

- Please be sure that all instruments/tools and materials are completed with detailed information such as type, merk, country, purity, grade, etc.
- The real laboratory setup can be shown in the manuscript or supplementary file.

Results and Discussion:

- Please compare your results with the results in previous studies.
- Please add information about the limitations of this study.

Conclusion:

- Please add important findings (quantitative data) in the conclusion.
- Please add prospective further experiments in the future.
