

Review of: "Evaluation of Chemical Content and Phytochemical Composition of Yemeni Almond Cultivars"

Alev Yüksel Aydar

Potential competing interests: No potential competing interests to declare.

The authors should add the results of the statistical analysis, add the letters to tables (2, 3, 4, and 5) for significant differences, and please check the whole manuscript for English grammar and typos. Replace "yeild" with "yield" in table 5. For results, please write more scientific explanations for the results rather than comparisons with other studies.
