

Review of: "Feature Selection and Classification of Type II Diabetes on High Dimensional Dataset"

Jayendra Kumar (SMIEEE)

Potential competing interests: No potential competing interests to declare.

The title is not informative. Please include what type of feature selection(s) is/are used?

What is the technique to use these classifiers? Please specify briefly.

What is the nature of the used dataset, linear, non-linear, etc.?

Please discuss the authenticity and validity of the used dataset.

Compare results with other feature selection methods and ML classifiers.
