**Potential competing interests:** No potential competing interests to declare.

1. Please revise your in-text citation
2. Please use the latest reference (within 5 years of research)
3. Explain what primer and secondary data are that were used in this study
4. For in-depth interviews, how many respondents? Did you choose them randomly?
5. Draw the Theoretical Framework that was used in this study, not just explain about it
6. Can you show the results using a graph or chart to make your explanation about the study findings easy to understand?
7. In the discussion, you can also put/give suggestions for future research
