

# Review of: "Evaluating the Impact of Nutritional and Socioeconomic Factors on Cognitive and Academic Performance in age 6-13 years"

Okeyoyin Kayode<sup>1</sup>

<sup>1</sup> Osun State University

Potential competing interests: No potential competing interests to declare.

The results are inline with the study objectives

There is a need for the author to check critically for spelling and grammatical errors

The age group indicated in the title was 6 to 13 years, however 6 to 11 years was included in the write-up. The author should be consistent with the age group.

The respondents were recruited from urban and rural areas; the author should compare results in the two groups. The socioeconomic factors influencing cognitive performance in both rural and urban areas should be provided.

The respondents were minors and cannot give consent on their own; it is better for the author to state that the parents provided informed consent on behalf of their child.

Thank you

Dr. O.O.Kayode

Lecturer, Department of Human Nutrition and Dietetics, Osun State University.
