

Review of: "Nanomaterials: History, Production, Properties, Applications, and Toxicities"

Bhawana Jain

Potential competing interests: No potential competing interests to declare.

1. Rewrite abstract and add some previously reported data.
2. Table 1 is very short; add more work and recent research.
3. Add a few references in the applications section and add mechanisms for a few.

1. Nanoparticles toxicity needs to be explained.
2. Recheck grammatical errors.
3. Need more tables and figures to make the article visible to readers.
4. Cite more recent papers and what the novelty of your review is.
