## Reviewer's comments

I noticed that there are two major issues:

1. Use of bilingual (Albanian and English) in a single manuscript

- It makes the readers confused. It is better to use the English language only.

1. Presentation of the findings/results of the study

- Don't confuse with the use of graphs and tables. Although you use graphs, you labelled these as tables. There was a lack of proper titles for the graphs. Besides, there shouldn't be too many components in a pie chart. Check and revise accordingly.

All the best.
