

Review of: "Climate Change! We are finished!"

Namita Das

Potential competing interests: No potential competing interests to declare.

This poem is a powerful and evocative piece that intertwines a poignant plea for divine intervention with a vivid depiction of the celestial response to the climate crisis. The imagery of Gabriel and Michael washing the soot-covered feet of the Lord is particularly striking, symbolising the earth's pollution and the celestial efforts to cleanse it. This poem is a compelling call to action, urging humanity to heed the divine warning and work towards preserving our planet.
