Potential competing interests: No potential competing interests to declare.

Line 2 of the introduction: "...instruments gave more edge when compared to manual instruments..." may be improved such that "...instruments provided a greater advantage over manual instruments..."

It could be more understandable to write "Piezoelectric crystals compress when electrical charges are applied to them..." instead of "Piezoelectric crystals compress when electrical charges are applied" in Principle & Mechanism of Action, Line 5.

Benefits, Bullet Point 1: "The selective cutting action of piezo surgery insert, makes it ideal to utilize near neurovascular tissues and maxillary sinus." might be "The selective cutting action of piezo surgery inserts makes it ideal for use near neurovascular tissues and the maxillary sinus."

Your paper is thorough and thoroughly researched, to put it briefly. You may increase information's accessibility and influence on readers by making it more organized, readable, and presented.
