Potential competing interests: No potential competing interests to declare.

The following revisions are needed for this article:

- Correct grammatical and spelling errors.
- Include a literature review of existing systems related to the problem addressed in this paper.
- Improve the figures: ensure all have clear titles and are not messy.
- Provide a performance analysis comparing the proposed system with existing ones.
- Detail the machine learning algorithms (SVM, NB, RF, LR, KNN, and GBC) used, including their advantages and limitations.
- Include recent references to enhance the visibility of the research.
- Revise the conclusion to present precise and concise points that summarize the research effectively.
- Include the future scope of the research in the conclusion.
- This article requires major revisions.
