# Enhanced cognitive state (ECS)

Jonathan D. Nash, Andrew Newberg, Bhuvanesh Awasthi

## Source

*Jonathan D. Nash, Andrew Newberg. (2013). Toward a unifying taxonomy and definition for meditation. *Front. Psychol*, vol. 4 . doi:10.3389/fpsyg.2013.00806.*

Is defined as the resultant state of consciousness due to the successful employment of a CDM, in which the phenomenological content is primarily cognitive in nature.
