Potential competing interests: No potential competing interests to declare.

1. The research isn't novel
2. Introduction is too brief to include recent related studies and their references..... here is one **El-Naqa, A., Hammouri, N., Ibrahim, K. and Al-Taj, M. (2009)**. Integrated Approach for Groundwater Exploration in Wadi Araba Using Remote Sensing and GIS. Jordan Journal of Civil Engineering, Vol. 3, No. 3, pp. 229-243.
3. Figures need to be on a larger scale.
4. Some of the references are outdated. The researcher should consider including more recent references.
