

Review of: "Synthesis of 1, 2-Disubstituted Benzimidazoles at Ambient Temperature Catalyzed by 1-Methylimidazolium Tetraflouroborate ([Hmim] BF_4) and Investigating Their Anti-ovarian Cancer Properties Through Molecular Docking Studies and Calculations"

Dr. Shikha Agarwal

Potential competing interests: No potential competing interests to declare.

The manuscript has been reviewed and needs substantial revision before further processing.

- 1. Firstly, no optimization was performed. How did the authors obtain the best conditions for carrying out the reaction?
- 2. What is the role of the catalyst in the reaction? Show with the help of a proper mechanism.
- 3. Give the recyclability of the catalyst.
- 4. How is the catalyst prepared?
- 5. Cite the following references:
