**Potential competing interests:** No potential competing interests to declare.

The manuscript is good but needs some changes.

1. Clearly mention the novel contribution of the study.
2. It is good to add graphical representation, but the manuscript lacks empirical analysis. Please add.
3. Please add a literature review of the study. Also mention the research gap addressed in this paper.
4. I did not find a single diagram that represents the trend of AI in section 5. Although finding historic data is impossible, quarterly data for the previous 2 years can make your manuscript more appealing.
5. Please add policy recommendations and future insights of the study.
