Potential competing interests: No potential competing interests to declare.

1-The title of this manuscript looks very general while the content discusses special aspects.

2- Scientific writing style should be improved.

3-Table 1 should be specialized on impacts on vital issues of society.

4-Figure captions should be comprehensive.

5-Remove figures background.

6-The whole manuscript suffers from lack of scientific quantitative information related to the topic.

7- Novelty and future perspective should be highlighted.
