**Potential competing interests:** The author(s) declared that no potential competing interests exist.

- Study duration period mentioned in the abstract part is different from the duration mentioned in main text.
- Keywords should be arranged alphabetically.
- Study duration was conducted between June to August then how the authors had mentioned in the text that “the hospital did not report any cases of MPX between January and May 2022”.
- Author Should have mentioned the case definition of Confirmed case and Probable case of Monkey pox in Materials and methods.
- Conclusion should not include reference as it should be based on the observations.
- Table 1 should be cited in the main text.
