

Review of: "A New Record of *Henckelia* *Infundibuliformis* for India From Arunachal Pradesh"

Mohammad Mehdi Dehshiri

Potential competing interests: No potential competing interests to declare.

Although the article provides valuable information to the readers, it is better to describe this species more fully. On the other hand, quantitative or qualitative differences with the descriptions reported from other countries should be explained in order to determine the role of ecological conditions. Also, based on the latest available information, the identification key for this genus in India should be written.
