Recommendation.

Consistency in writing the scientific name of bamboo throughout the article. There were some mistypings of the scientific name of bamboo, such as Bamboo Vulgaris, in the Abstract.

What is FMCG in the Literature Review?

What is the percent solid loading in the enzymatic hydrolysis?

FPU is a filter paper unit, not a fatty acid unit.

What was the concentration of the distilled ethanol? The properties of pure ethanol have to be constant. What were the concentrations of bioethanol and conventional ethanol? From this information, it could explain the difference between these two ethanols.
